Good Morning Mara,

Thank you for taking the time to write such positive and meaningful comments regarding Kristen. Yes, she is a "Math Wizard". I greatly appreciate you inviting her into your classroom to play with numbers. She has a way of making math fun and less intimidating. Not everyone takes the time to show their appreciation which is well deserved.

Cheryl

Hello Cheryl,

I just wanted to drop a quick message to let you know the great asset that Kristen Acosta has been in my classroom as a math coach. She has taught me and my students to love math and to "play" with numbers in so many creative ways.

I first met her this past summer (math camp) and she has come to my classroom per my request several times and on each visit, I learn something new from her. Most importantly, every time she is in my classroom, she provides my students with engaging math activities that challenge them to think deeper.

My students know her as the "Math Wizard" and I have come to know her as a hard working, dedicated math coach who is passionate about teaching math techniques to any teacher who is interested in learning. I just wanted you to know that.

Thank you.
